

**Open Server Summit Announces Mario Paniccia of Intel Corporation Keynote
“Revolutionizing Computing and Communications with Silicon Photonics”**

SANTA CLARA, CA – October 23, 2013 – Open Server Summit, a leading Silicon Valley conference for the server industry taking place this week at the Santa Clara Convention Center, today announced the special keynote appointment of Open Server Summit 2013 – Mario Paniccia, General Manager and Fellow, Intel Silicon Photonics Operation. Taking place on Wednesday, Oct. 23, at 5:40 p.m. PDT in the Great America Ballroom, Intel’s keynote is titled “Revolutionizing Computing and Communications with Silicon Photonics.”

WHAT: Intel Silicon Photonics Operation Keynote titled “Revolutionizing Computing and Communications with Silicon Photonics”

WHO: Mario Paniccia, Manager and Fellow, Intel Silicon Photonics Operation **WHEN:** Wednesday, Oct. 23, 2013 from 5:40 - 6:10 PM PDT

WHERE: Open Server Summit 2013 - Santa Clara Convention Center, Great America Ballroom, Santa Clara, CA

PLEASE NOTE: Media wishing to attend must be registered to attend Open Server Summit 2013. To request a media credential, [contact melissa@openserversummit.com](mailto:contact_melissa@openserversummit.com). Seating is limited.

About Open Server Summit

Open Server Summit (“OSS”), produced by Conference Concepts and formerly called Server Design Summit, celebrates its 5th anniversary on October 22-24 at the Santa Clara Convention Center. OSS focuses on the design of next-generation servers with topics ranging from semiconductors and network interface cards through powerful high-end systems and overall infrastructure design and operation. The conference also covers hyperscale computing, data center and server efficiency, cloud storage, virtualization, and liquid cooling. Industry visionaries will address the use of SSDs, microservers, software-defined networking, and other efforts toward combining industry-standard hardware with open-source software.
